PROFESSIONAL SUMMARY

IT and cybersecurity professional pursuing an M.S. in Digital Forensics & Cybersecurity, with Level 1 IT support experience and hands-on Python, AI, security, and data analytics projects. Experienced in identity and access support, technical documentation, and helping users resolve login and software issues.

TECHNICAL SKILLS

Programming & Data: Python, SQL, C++, JavaScript, Bash, PowerShell, Power BI, Power Automate
Security & Networking: Wireshark, Splunk, Nmap, TCP/IP, DNS, phishing analysis, Kali Linux, SHA-256
IT & Systems: Windows, macOS, Linux, Active Directory, Duo MFA, Microsoft 365, ServiceNow, Track-It!, AWS
AI: RAG, ChromaDB, Gemini API, MCP

PROFESSIONAL EXPERIENCE

IT Support Assistant | CUNY John Jay College of Criminal Justice New York, NY | Feb 2025–Present

- Provide Level 1 IT support for students, faculty, and staff in a university community serving more than 15,000 users through in-person, phone, email, and remote channels.
- Troubleshoot account login credentials, password resets, Active Directory access, Duo MFA, Microsoft 365, and general software issues.
- Document requests and resolutions in ticketing systems; escalate network, IT security, and other technical issues to the appropriate teams.
- Explain troubleshooting steps clearly and help users regain access to accounts and applications.

IT Analyst Intern | Rose Associates New York, NY | Jul 2024–Aug 2024

- Developed Power BI dashboards for operational reporting and IT-related metrics.
- Used Power Automate and SharePoint to streamline administrative workflows and data tracking.
- Assisted with device provisioning, reimaging, and access-permission support for business users.

IT Intern | Concern Worldwide US New York, NY | Jun 2023–Aug 2023

- Delivered onsite and remote troubleshooting for account, application, hardware, and basic connectivity issues.
- Helped redesign asset inventory and barcode-tracking workflows to improve equipment accountability.
- Supported SharePoint file-access management and collaboration workflows.

Data Management & Analytics Intern | Johnson & Johnson New Brunswick, NJ (Remote) | Feb 2022–Jul 2022

- Created Power BI reports to track key performance indicators.
- Supported application and data archiving during the separation of business operations.
- Identified and classified files containing sensitive data subject to HIPAA or PCI handling requirements.

SELECTED TECHNICAL PROJECTS

Forensic Recovery & Timeline Reconstruction | Python, Kali Linux, ExifTool, SHA-256
Built a Python forensic workflow to recover files, extract metadata, verify hashes, and reconstruct timelines.

FitFindr, Multi-Tool AI Agent | Python, MCP, APIs
Built an AI shopping agent with tool-based workflows, conditional planning, error handling, and structured tests.

AI vs. Traditional Intrusion Detection | Cybersecurity, Machine Learning | May 2025
Researched AI-based and traditional IDS approaches using CICIDS2017 and NSL-KDD, comparing reported detection performance.

EDUCATION & CERTIFICATIONS

M.S., Digital Forensics & Cybersecurity | CUNY John Jay College | Expected May 2028
B.S., Computer Science & Information Security | CUNY John Jay College | Sep 2025
CompTIA A+ | AWS Certified Cloud Practitioner | Google IT Support Professional Certificate
